Quality, Reliability and Customer Focus*

# Product portfolio

Product Name/Antigen	Code	Type	Source
Anti-Calprotectin IgG	ABC04	Antibody	Goat
Anti-Calprotectin Monoclonal IgG	AMC04	Antibody	Mouse
Anti-ECP IgG	ABE03	Antibody	Sheep
Beta-2-Glycoprotein 1	ATG01	Antigen	Human Plasma
BPI	ATB01	Antigen	Human Neutrophils
Calprotectin	ATC04	Antigen	Human Neutrophils
Cathepsin G	ATC01	Antigen	Human Neutrophils
CENP-B	ATC02	Antigen	Recombinant (Sf21)
Elastase	ATE01	Antigen	Human Neutrophils
Eosinophil Cationic Protein	ATE03	Antigen	Human Neutrophils
GBM	ATG02	Antigen	Bovine Kidney
Histone (H1-enriched)	AHB01	Antigen	Bovine Thymus
Jo-1	ATJ01	Antigen	Calf Thymus
La(SSB)	ALA01	Antigen	Calf Thymus
LC-1	ATL04	Antigen	Recombinant (Sf21)
Mitochondrial	ATM02	Antigen	Bovine Heart Muscle
Myeloperoxidase (pANCA)	ATM01	Antigen	Human Neutrophils
Nucleosome	ATN02	Antigen	Calf Thymus
Parietal cell antigen (H/K-ATPase)	ATP01	Antigen	Porcine Gastric Mucosa
Proteinase 3 (cANCA)	ATP02	Antigen	Human Neutrophils
Rheumatoid factor antigen	ATF01	Antigen	Human Plasma
RNP-68K (Sm-Free)	ATR04	Antigen	Calf Thymus
RNP-Sm	ATR01	Antigen	Calf Thymus
Ro(SSA)	ATR02	Antigen	Calf Thymus
Ro52	ATR05	Antigen	Recombinant (Sf21)
Scl-70	ATS01	Antigen	Calf Thymus
Sm	ATS02	Antigen	Calf Thymus
Tissue Transglutaminase (tTG)	ATT01	Antigen	Recombinant (Sf21)

### Biotinylated Antigens

Product Name/Antigen	Code	Type	Source
Beta-2-Glycoprotein 1	G01	Antigen	Human Blood
CENP-B	C02	Antigen	Recombinant (Sf21)
GBM	G02	Antigen	Bovine Kidney
Myeloperoxidase (pANCA)	M01	Antigen	Human Neutrophils
Proteinase 3 (cANCA)	P02	Antigen	Human Neutrophils
Ro(SSA)	R02	Antigen	Calf Thymus
Ro52	R05	Antigen	Recombinant (Sf21)
Scl-70	S01	Antigen	Calf Thymus
Sm	S02	Antigen	Calf Thymus
tTG	T01	Antigen	Recombinant (Sf21)

### Paraneoplastic Antigens

Product Name/Antigen	Code	Type	Source
Amphiphysin	A03	Antigen	Recombinant (E.coli)
CDR2/Yo	Y01	Antigen	Recombinant (E.coli)
CV2/CRMP5	C05	Antigen	Recombinant (E.coli)
HuD	H02	Antigen	Recombinant (E.coli)
Ma1(PNMA1)	M04	Antigen	Recombinant (E.coli)
Ma2(PNMA2)	M05	Antigen	Recombinant (E.coli)
Recoverin	R09	Antigen	Recombinant (E.coli)
Ri(Nova-1)	R10	Antigen	Recombinant (E.coli)

### Available Soon

Product Name/Antigen	Code	Type	Source
Proliferating Cell Nuclear Antigen (PCNA)	ATP03	Antigen	Recombinant (Sf21)
RNA Polymerase III A	TBD	Antigen	Recombinant (E. coli)
LKM-1	TBD	Antigen	Recombinant (Sf21)
DFS-70	TBD	Antigen	Recombinant (Sf21)

# Empowering Your Diagnostic Success

## Reliable and Stable Raw Materials:

**Superior Clinical Performance:** High-quality antigens ensure optimal IVD test results.

**Lot-to-Lot Consistency:** Batch uniformity provides optimised production and outputs.

**Expert Access:** Direct support from AROTEC's protein purification experts.

**ISO 9001 Certified:** Our commitment to the highest quality standards is recognised globally.

**Rigorous Quality Control:** Unique patient serum bank for guaranteed reliability.

**Innovation and Collaboration:** Continuous improvements with a focus on premium, New Zealand-origin materials.

## Manufacturing and Planning Support:

**Scalable Production:** Large batch sizes, ranging from hundreds of milligrams to grams, enhance production efficiency.

**Extended Shelf-Life:** Products maintain a seven-year shelf-life post-manufacturing.

**Stock Holding:** Comprehensive inventory levels and short lead times ensure prompt availability.

**Flexible Ordering:** Utilise AROTEC's call-order option for lot evaluation and reservation.

**Local Storage:** Reserved materials are stored in regional Distribution Centres for flexible access.

**Reliable Delivery:** Trust in our dependable delivery system and effortless communication.

## Streamlined Purchasing Procedure:

**Direct Contact:** Reach local AROTEC representatives by phone or email.

**Prompt Responses:** Expect replies within 48 hours.

**Clarity and Transparency:** Enjoy clear processes and straightforward costs.

**Documentation Handling:** Automatically receive all necessary documents.

**Tracking and Support:** Benefit from shipment tracking and optional dry-ice refilling.
